My grandmother passed away last month and my grandfather brought her a scooter for \$3,000 a few months prior. She rode on it a few times and it is in pristine condition. He no longer needs the scooter and I'm trying to help him before I go back to Maryland next week. He is looking to get half of what he paid. Please let me know if you have a reasonable offer for him. He has the receipts, charger, and all the paper work.
